Enabling leader dial out for your conference allows the leader to bring another participant into an ongoing conference. These calls result in additional long distance charges being incurred by Metronet Telecom, which then result in charges to you the client. You must protect the leader passcode from becoming common knowledge. This code should be protected the same as a calling card or credit card. If lost or stolen notify Metronet Telecom immediately at 1-888-694-1101.

As an authorized representative of this organization, I request Metronet Telecom, inc. to enable Leader Dial out for our reservationless conference(s). I understand the importance of protecting the leader passcode(s) and accept responsibility for paying any charges associated with the use of leader dial out.
